ANGLO ASIAN MINING

Interim Results

6 months to 30 June 2026

Transition to mid-tier copper & gold production

21 September 2026

Highlights

Record copper production driving a step-change in earnings and cash generation

Group production significantly increased following first 6-month period as a multi-asset producer

- Record copper production of 8,840t (H1 2025: 1,188t)
- Gold production of 12,329oz (H1 2025: 12,114oz)
- Silver production of 92,855oz (H1 2025: 62,348oz)

This enabled a strong financial performance

- Revenue increased to $141.2m (H1 2025: $40.9m)
- Profit before taxation rose to $68.5.m (H1 2025: $7.1m)

Continued focus on developing our growth projects

- Consultants appointed for the Xarxar and Garadag feasibility studies
- 90,000m core drilling programme for 2026–27 commenced for exploration and feasibility studies

Strong balance sheet and commitment to shareholder returns

- Net cash generated by operating activities of $78.5m (H1 2025: $11.4m)
- Net cash position of $57.7m at 30 June 2026 (31 Dec 2025: $2.6m)
- Interim dividend declared for FY2026 of 6 US cents per ordinary share

Strategy to become a mid-tier copper and gold producer

Five-year objective to become a major copper producer, producing ~50,000 tonnes of copper metal p.a.

Increase copper production to around 50,000 tonnes of copper p.a. by the sequential opening of new mines

- Two mines opened last year: Gilar and Demirli
- Xarxar and Garadag are targeted to enter production in 2028 and 2030 respectively

Future projects progressing in-line with expectations

- Appointed Worley Europe Limited to complete the Xarxar and Garadag feasibility studies
- Core drilling nearing completion at Xarxar of planned 10,000m for infill, geotechnical, hydrological and metallurgical study work, for mine design and production optimisation

Major drill programme of 90,000m planned for exploration, mineral resources & project development

- About 55,000m of exploration and resource increase at Xarxar, Garadag, Gedabek and Demirli areas
- About 35,000m for Xarxar and Garadag studies

Undertake exploration to increase Company's resources under JORC standard

- Xarxar and Garadag JORC mineral resource estimates published
- Xarxar and Garadag host 119,000 tonnes of copper and 900,000 tonnes of copper respectively

ANGLO ASIAN MINING

Our operations

Our operations

Eight contract areas across a 2,500+ km² land package

NORTHERN BLOCK

#	ASSET	AREA (SQ.KM.)	STAGE
1	Garadag	344	Development & Exploration
2	Gosha	300	Exploration
3	Xarxar	464	Development & Exploration
4	Gedabek	300	Production & Exploration
TOTAL: 1,408 SQ.KM.			

CENTRAL BLOCK

#	ASSET	AREA (SQ.KM.)	STAGE
5	Demirli	74	Production & Exploration
6	Kyzylbulag	300	Exploration
TOTAL: 374 SQ.KM.			

SOUTHERN BLOCK

#	ASSET	AREA (SQ.KM.)	STAGE
7	Vejnaly	300	Exploration
8	Ordubad	462	Exploration
TOTAL: 762 SQ.KM.			

2,544 sq.km. land package across eight contract areas supporting production, development and exploration growth

Strong production at Gedabek

Management initiatives driving progress at new Gilar mine

Robust production

- First full six months of production at Gilar
- 12,329 ounces of gold and 17,236 tonnes of concentrate containing 3,341 tonnes of copper

Gilar performing in line with expectations

- Over 8,000 metres of access tunnel, spiral, ventilation and operation tunnelling
- Exploration tunnel development for access to drill for upper zones and Zone 4 deeper

Investments in our infrastructure

- New flotation line of nine high-efficiency Imhoflot pneumatic flotation cells and a new control room
- A heap leach test pad and a pilot solvent extraction / electrowinning plant are being constructed
- Final tailings dam wall raise completed in April, providing an additional 2-3 years of capacity

Brownfield exploration

- Re-evaluation of a known block of gold mineralisation in the Ugur open pit has commenced, with blasting and waste push back being carried out

Ramp-up at Demirli in-line with expectations

Steady state production expected during Q4 2026

Ramp up progressing in-line with expectation

- Processed 1,502,969 dry metric tonnes of ore grading 0.48 per cent. of copper
- Produced 28,805 tonnes of concentrate containing 5,499 tonnes of copper

Ongoing refinement of processing operations

- Ball mill gear shaft replaced in February
- Planned investments in upgrading the SAG mill to improve production

Continued review of tailings

- Wall of existing tailings dam has been buttressed with 20 million tonnes of rock and a further 10 metres wall raise of the dam is planned
- Technical specifications to obtain approval for the construction of a new tailings facility have also been submitted to the Government
- Oxide ore at the mine is currently being stockpiled and a test pad for leaching the ore has been constructed and a pilot solvent extraction / electrowinning plant will be constructed

Growth projects

Feasibility studies for our copper projects and ongoing drilling campaign

APPOINTMENT OF

Worley Europe Limited

- Worley Europe Limited appointed as the contractor for the feasibility studies for the Xarxar and Garadag development
- The Worley Group is a global leader in engineering, project and asset management solutions in the energy, chemicals and resources sectors
- Target completion dates:
  - H2 2027 for Xarxar
  - H1 2028 for Garadag

PLANNED

Drill programme

- Planned 90,000 metres of core drilling in 2026 and 2027, comprising:
  - c. 55,000 metres exploration drilling
  - c. 35,000 metres feasibility study drilling

CONTINUED FOCUS ON

Exploration

- Ongoing greenfield and brownfield exploration programme
- Key focus areas:
  - Extensions at Xarxar and Garadag and surrounding areas
  - Follow-up drilling in the Gedabek contract area
  - Extensions to the Demirli mine and Demirli South target area

ANGLO ASIAN MINING

Financial performance

Financial highlights

A robust financial performance

Revenues increased to $141.2 million (H1 2025: $40.9 million)

- Full six months of production at both Gedabek and Demirli
- Higher average selling prices of copper and gold

Significantly increased profitability, with profit before taxation of $68.5 million (H1 2025: $7.1 million)

- Reflects strong growth in revenues

Net cash position of $57.7 million at 30 June 2026 (31 December 2025: $2.6 million)

- Net cash generated by operating activities of $78.5 million (H1 2025: $11.4 million)

Interim dividend in respect of the year ending 31 December 2026 of 6.0 US cents per share

- Anglo Asian's ongoing commitment to delivering attractive shareholder returns whilst being mindful of future capital expenditure requirements

Profit and loss account

Six months ended 30 June 2026

Outlook

Summary and outlook

Another step-change year, with full year production from 3 mines and copper production to approximately triple

Strong H1 performance

- 8,840 tonnes of copper, 12,329 ounces of gold and 92,855 ounces of silver
- Continued operational and exploration progress supporting target to become a mid-tier, copper-focused producer

Full Year guidance

- Maintain copper and silver production guidance, with a small decrease in gold guidance due to lower-than-expected recoveries at Gilar
- Reduced AISC copper guidance

Production guidance

	2025 production	2026 production guidance
Copper (tonnes)	7,915	20,000 to 25,000
Gold (ounces)	25,061	26,000 to 30,000
Silver (ounces)	153,332	170,000 to 210,000

Cost guidance

Gold AISC ($/oz)

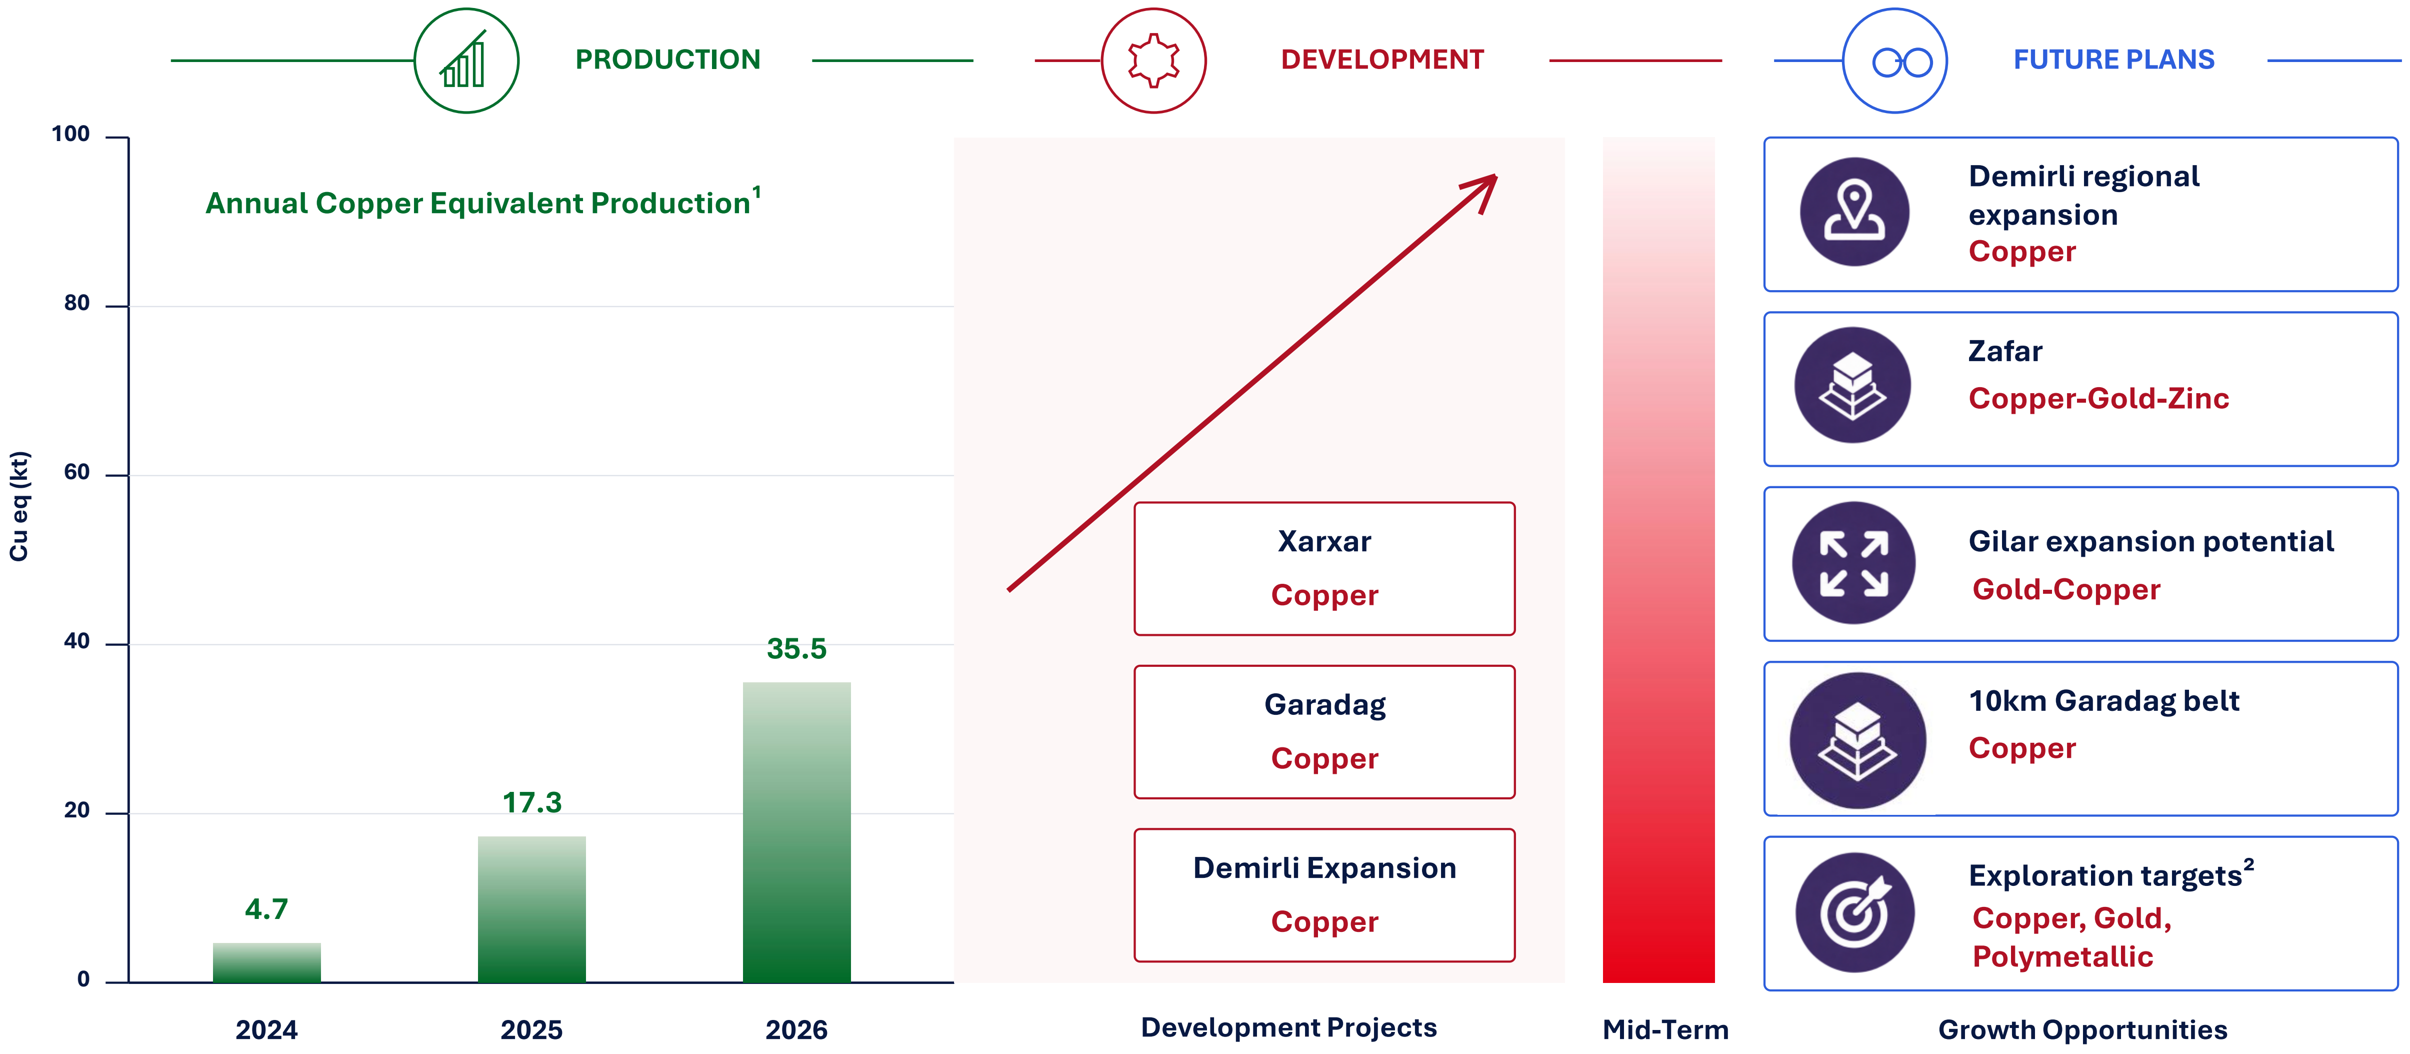
1,500 to 1,800

Copper AISC ($/tonne)

6,000 to 7,000

Strong growth outlook and highly cash generative

Significant portfolio of projects in development and growth supported by long-term exploration pipeline



Note 1: Copper Equivalent calculated on copper price $12,500/t and gold price $4,500/oz

Note 2: Significant Exploration Potential along strike of production mines

The investment case

A well-established, multi-asset mining company with extensive copper resources transitioning to mid-tier status

Multi-asset producer

Opened two new mines last year, significantly growing the production base, in-line with its growth strategy

Exciting developmental asset portfolio

2,500 square kilometres license areas, multi-billion-dollar resources to JORC standard of over 400,000 ounces of gold and one million tonnes of copper

Long-term track record

The Company has discovered and brought six mines into production without shareholder dilution

Highly experienced and incentivised team

Highly experienced and stable team with proven ability to operate in Azerbaijan, with interests aligned to shareholders

Disciplined approach to funding growth

Focused on funding development responsibly, with an emphasis on delivering shareholder value. We have never diluted our investors

Low-cost operator

The Company maintains strong cost and cash controls, and has traditionally operated in the lowest-cost quartile

ANGLO ASIAN MINING

Thank you.

Pioneering a copper-focused future in Azerbaijan

www.AngloAsianMining.com

Azerbaijan

A high-growth economy & investment destination

A strategically positioned, fast-growing regional economy

- Rapidly developing country with strengthened regional and international relationships
- Strategically positioned at the centre of East-West and North-South trade corridors
- Central to the TRIPP corridor initiative
- Historically oil & gas focused, with increasing diversification into the minerals sector
- Competitive energy pricing
- Highly educated and skilled workforce
- Stable PSA framework providing long-term business security

Multi-national corporations currently operating in Azerbaijan

bp | TOTAL | Chevron | SOCAR | equinor

Copper and gold resource base

Over 1.1 million tonnes of copper and over 350,000 ounces of gold*

Exploration is underway to increase resources and reclassify them from Inferred to Indicated and Measured.

TOTAL RESOURCE excluding Demirli | **1.10 Mt** COPPER | **356.7 koz** GOLD | **8 contract areas | significant exploration upside**

DEPOSIT / MINE	COPPER (TONNES)			GOLD (OUNCES)		
	Inferred	Measured + Indicated	Total	Inferred	Measured + Indicated	Total
Legacy**	1,700	15,057	16,757	13,900	53,388	67,288
Gilar	1	43,500	43,501	4,000	212,400	216,400
Zafar	3,000	25,000	28,000	9,000	64,000	73,000
Xarxar	12,800	106,300	119,100	–	–	–
Garadag	592,600	304,300	896,900	–	–	–
TOTAL	**610,101**	**494,157**	**1,104,258**	**26,900**	**329,788**	**356,688**

Significant exploration upside across known mineral occurrences and targets in 8 contract areas.

The current programme is focused on both resource growth and upgrading confidence categories.

* As of 1 January 2026; does not include any resource for Demirli.

** Gedabek open pit and underground mines and Gadir underground mine.

Future Growth – Xarxar

High-quality copper resource with strong development momentum

PROJECT OVERVIEW

- Open pit copper project located near the northern boundary of Gedabek
- 464 km^2 contract area with access to shared infrastructure, staffing and administrative support
- Planned copper cathode production using heap leaching and solvent extraction electrowinning (SX-EW), making Anglo Asian Mining and Azerbaijan a copper metal producer

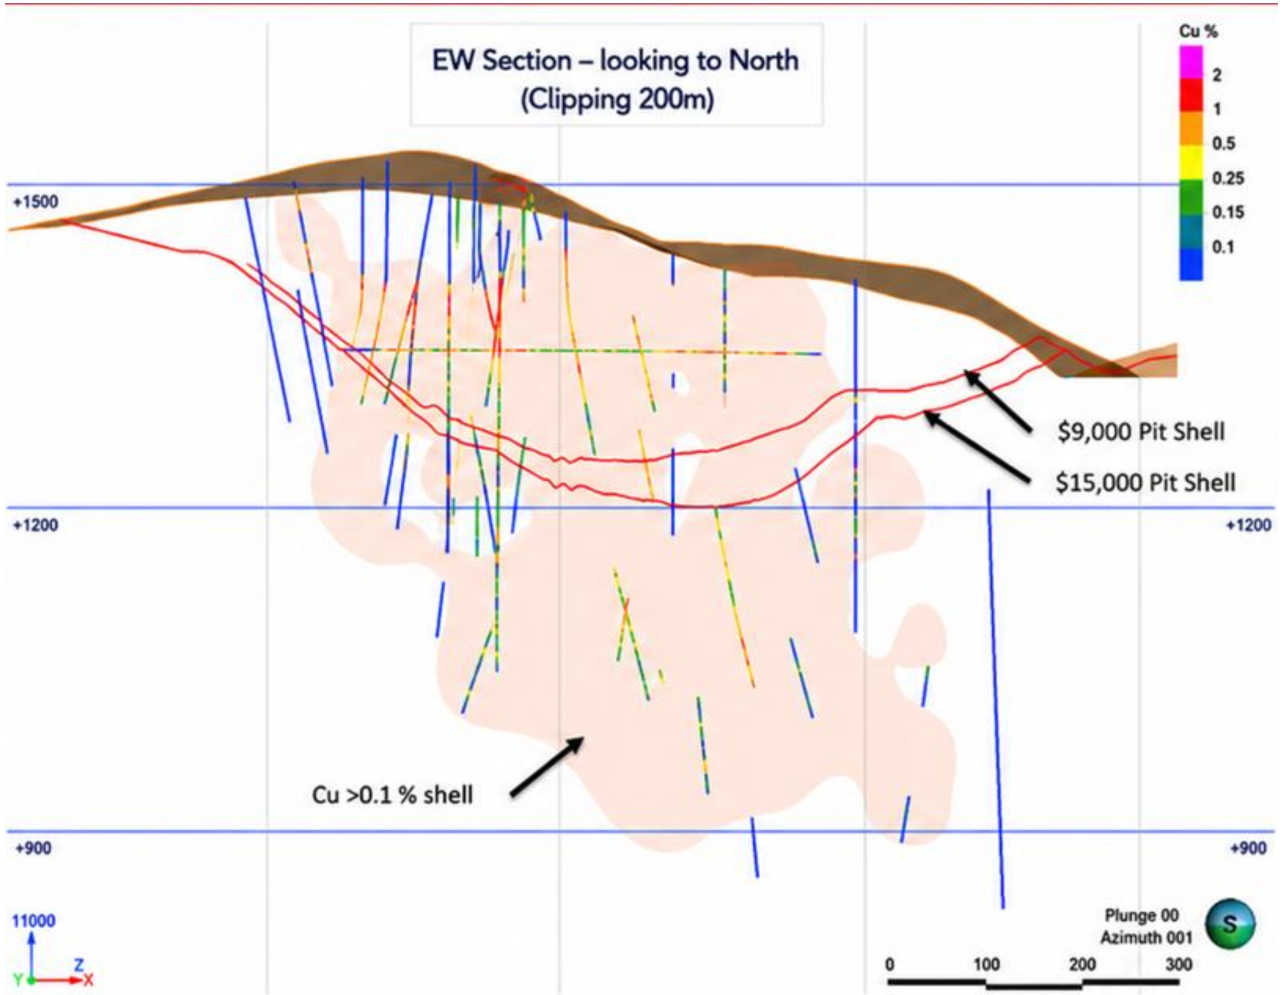
PROGRESS AT XARXAR

- JORC mineral resource estimate published in February 2024
  - ✓ Contains a total in-situ resource of 119,100 tonnes of copper
  - ✓ Further technical studies underway for open pit mine design and process selected
- Feasibility Study consultant selected for FS completion in mid-2027
- Finalizing next phase drilling: geotechnical, hydrogeological, rock characteristics

EXPLORATION UPSIDE

- Significant exploration potential identified near the Xarxar deposit

XARXAR DRILL SECTION



Focused drilling and studies advancing Xarxar towards a robust development decision.

Future Growth – Garadag

Expected to enter production 2030

MAJOR COPPER PROJECT

- $344\ km^2$ contract area
- Maiden JORC total resource (Indicated and Inferred) of ~900,000 tonnes of copper metal hosted in 285 million tonnes of mineralisation with average grades of 0.32% Copper
- Plan to produce copper cathode by solvent extraction electrowinning, making Anglo Asian and Azerbaijan a copper metal producer
- Shared operational infrastructure and processing with Xarxar reducing capex requirements and enabling efficient capital deployment

PROGRESS AT GARADAG

- Mining trade - off study completed, open pit selected
- 90 million tonnes of ore (containing 307 kt copper) over 18 years
- Infrastructure layout completed (mine, dumps, crushers, HL, plant & auxiliary buildings

FEASIBILITY STUDY & PLANNED WORK

- Drilling to confirm geotechnical, hydrogeological, metallurgical samples and enhance MRE
- Process technology assessment for copper heap leach, bioleach and SX-EW
- Feasibility Study consultant selected for FS completion in H1 2028
